

Application No. 10/800,712 (Marsh) GAU 3632 Amnt. A contd. Page 3 of 3

**REMARKS**

It is not this applicant's intention to assert the origination of multi-serving vessels, but rather to claim a pad-adjunct invented specifically for use with multi-serving vessels. And so, Claim 2 has been amended using the more specific term 'pad adjunct' instead of 'pad apparatus' to describe the present invention.

This applicant submits Claim 2 is now in proper form and that Claim 2 particularly points out and distinctly claims the subject matter which is regarded as the invention as required under 35 U.S.C. §112, second paragraph. Therefore it is submitted that this application is now in a condition for allowance. If the Examiner agrees, but still does not believe the present claim to be technically adequate, this applicant respectfully requests the Examiner write an acceptable claim pursuant M.P.E.P. §707.07 (j) in order that the undersigned can place this application in allowable condition as soon as possible without the need for further proceedings.

Very respectfully,
